**In 1996, Three distinguished lawyers and academics had the vision**

To create a law firm like no other based upon the principles of honesty, social justice, ethics and service. In doing so, they molded a firm dedicated to achieving legal excellence, with the ability to provide clients with an environment of trust and respect, where matters are attended with the outmost diligence and discretion.

These are the guiding principles under which we work.

## PROBLEM SOLVED!

K&M ABOGADOS Inc. has its main office in Tegucigalpa, Honduras. We pride ourselves in achieving practical and efficient solutions for our clients. We rely on our lawyers at all levels of seniority as well as a team oriented approach, to ensure that matters entrusted to us are studied in depth, even from the most unconventional and innovative points of view.

Our clients rely on us for comprehensive legal advice on their largest and most complex transactions and their most challenging legal disputes. We provide counsel and representation in virtually every area of law, including arbitration and litigation, no matter how big the opportunity or formidable the challenge.

For this reason, our lawyers regularly undertake litigation on some of the most high-profile, precedent setting cases in the country. We represent domestic and international corporations and individuals at all levels of the court system, in administrative, civil, criminal and business cases alike.

However, where our clients' interests dictate a settlement, we have shown great skill in achieving outstanding out of court results. We usually manage the complete dispute resolution process, from the drafting of dispute resolution clauses to representation in arbitration, mediation and other ADR methods.

## MULTIPLY YOUR POTENTIAL

In a truly global environment, we help our clients evaluate the risks and rewards of ventures designed to advance their interests.

By offering multi-lingual attorneys with years of legal experience and a familiarity with local customs and market practice, we are able to provide unsurpassed service to our clients.

Furthermore, by integrating the services of Notarization and Tax Audit Departments to our law firm, we are able to provide multinational corporations and entrepreneurs, with the support they need to do one important thing: Run their business and achieve their goals.
